Information Disclosure Statement

Sir:

As suggested by 37 C.F.R. § 1.97, applicant's undersigned attorney brings to the attention of the Patent and Trademark Office the references listed on the attached Form PTO-1449, a copy of which is enclosed. This is not to be construed as a representation that a search has been made, or that no better prior art exists, or that a reference is relevant merely because cited.

Pigg, 5,600,702 an improvement for a positoner for a child being X-rayed. The improvement including an improved latch for increasing the friction between the latch and the carriage that supports the X-ray cassette.

Pigg, 3,051,832 invention discloses an apparatus for use in connection with the taking of X-ray pictures and in particular

with the taking of X-ray pictures for infants and young children. The apparatus uses upright restraints to hold infants and children securely in place to take X-rays without incurring shadowing effects due to the child's movement.

The examiner is requested to review these references and cite them of official record in this application.

Respectfully submitted,

MILLER & MARTIN
